## Workshops and Trainings

### 2007

BY WILLIAM R. EMERSON, PH.D.

Emerson Seminars provides experiential workshops and trainings for professionals and non-professionals. All ES courses are safe, structured, results-producing courses specifically designed to address prenatal and perinatal (birth) shock. Using powerful, effective, and practical techniques developed by Dr. Emerson, those attending Emerson courses have the opportunity to identify, explore and heal wounds emanating from the prenatal and perinatal periods.

Emerson Seminars offers a Practitioner Training program which includes self-experience, instruction, and practical training in *Emerson Shock Resolution Techniques*. A Journey Program is offered for the non-professional who wishes to focus on prenatal and perinatal self-experience as a means to increased personal and spiritual growth.
